### THE LIVE STOCK MARKETS

CATTLE SCARCE AND WITHOUT IM-PORTANT CHANGE IN PRICES.

Hogs Moderately Active and Five Cents Higher-Sheep Scarce and Quiet-Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS, Ind., March 5. - Cattle - Receipts, 100; shipments none. The receipts of cattle this week have been fairly liberal, but very little change is shown in the aggregate compared with last week and an increase of 2,300 over the same week a year ago and nearly 3,200 over the corresponding week two years ago. Thus far this year the receipts are over 14,000 larger than the same period last year. A greater part of the week the market has been handicapped by the presence of too many undesirable cattle and consequently the results at all times have not been up to the expectations of salesmen. Comparatively steady prices were maintained on the better class of steers until the close of the week, when, under the influence of more liberal supplies of common stock and correspondingly lower prices, there was a sympathetic decline of about 10c in prices of steers. It was the opinion of most dealers, however, that this change would only be temporary and that the loss would be regained in the near future. Good female tutcher cattle did not show a great deal | week, but they have not been steady in of change during the week. They were pos- either direction. The week's receipts were sibly a little stronger about the middle slightly larger than last week, but the of the week, but a slight reaction at the close left values in practically the same | was active, with both packers and shippers position that they were at the close of last | buying. All sold promptly. Choice heavy week. There has ben a demand equal to hogs were quoted at \$6.90@7. There were the supply of good feeding cattle all week and strong prices have prevailed, but there | ket closed quiet and steady at the advance. was an excessive supply of common stock | Quotations: cattle and it was not unusual to hear of Good to choice heavies ............\$6.85@7.00 sales 25c lower. Even at the decline the supply was too large and the week closed with some unsold. High prices reported this week were \$6.90 for steers, \$5.90 for heifers, \$5.75 for cows, \$5 for bulls and \$7 for calves. There were very few fresh arrivals to-day; in fact, not enough to establish a market. Therefore salesmen directed their attention to the supply of sale stuff, but did not succeed in effecting many sales. Most dealers seem to entertain a favorable view of the outlook for the near future for fat cattle, but they are advising their customers to allow a very wide margin for shipping other kinds. Quotations: Good to choice steers, 1,350 lbs

Plain fat steers, 1,350 lbs and up-Good to choice 1,200 to 1,300-lb Plain fat 1,200 to 1,300-lb steers.... 5.65@ 6.15 Good to choice 1,000 to 1,150-lb Plain fat 1,000 to 1,150-lb steers.... Choice feding steers, 1,000 to 1,100 Good feeding steers, 900 to 1,100

Common to good stockers...... 3.25@ 4.50 @5; calves, \$4.30@5.50.

## SOME SHOW OF ACTIVITY

A FEW STOCKS ARE IN GOOD DE-MAND AT HIGHER PRICES.

General Level of Values, However, Is Somewhat Lower-Money Outlook and Legal Entanglements.

NEW YORK, April 5.-To-day's stock market continued to reflect the activity of the speculative element which has caused crease of 150 over the same week a year the revival in the market during the latter ago and 450 over the corresponding week wo years ago. Thus far this year the repart of the week, but the operators had to ceipts are over 4,700 larger than the same meet heavy realizing sales after the openperiod last year. There has been a good, ing. The market had turned upward again strong, healthy market this week for all suitable stock, which, of course, was due when the disclosure of the important n part to the scarcity of that class. Most shrinkage in the surplus reserve of the of the time the supplies have been too small banks renewed the selling and sent prices interest all buyers to any extent, but at that trading was reasonably active and generally below last night's level. Louisgood clearances were made in season at ville & Nashville was the only important urrent prices. At times there was some tendency toward weakness in sympathy stock to make notable headway on the with other places, but on account of the final rally and the market closed irregular. light receipts a good average was main-There was some reversion to the obscurer tained in prices and at the close of the class of stocks as shown by the 20-point week values were fully as high, and possibly a shade higher, than they were at the rise in Burlington, Cedar Rapids & Northclose of last week. Both local butchers and ern, 8 in United States Express and 314 in shippers bought as freely as the limited Nashville, Chattanooga & St. Louis. Hocknumber on sale would permit. High prices reported this week were \$11 for spring ing Valley made a renewed advance. Sugar lambs, \$6.50 for others, \$5.40 for yearling and Colorado Fuel were under pressure, but sheep and \$5.25 for old sheep. There were rallied effectively. The banks failed to very few fresh arrivals to-day and the market was quiet at unchanged prices comshow the expected off-set to the drain into the subtreasury by any gain on the interior Good to choice lambs......\$5.75@6.50 movement of currency. Apparently losses ommon to medium lambs...... 4.50@6.50 were incurred on this account as well as on lood to choice yearlings..... 5.00@5.50 Good to choice sheep...... 4.00@5.00 subtreasury operation. There seems to have Common to medium sheep...... 2.50@3.75 been special transfers of specie to Phila-Stockers and feeding sheep...... 2.00@3.00 | delphia during the week, which is at-Bucks, per 100 lbs...... 2.50@3.50 tributed to requirements growing out of the labor situation in the coal fields. The Transactions at the Interstate Yards. disbursements of government interest during the week has made no impression on INTERSTATE STOCKYARDS, INDIANthe subtreasury absorptions, which have been aggravated by large deposits of lawful POLIS, April 5.-Cattle-Receipts small; money for account of national banks which shipments none. The tendency of the marare retiring their circulation. The activity ket all week has been toward a lower basis. in the stock market gave warning of a probable increase in the loan increase of The decline of choice finished cattle has not been large enough to cause a change of the surplus by two-thirds. Gold exports in quotations, but the common and medium are considered probable next week. The passing of the April settlements have kinds are fully 25c lower than they were resulted in only a moderate growth of spec-

ulative interest in stocks, in spite of the ket there has been no let-up in the inquiry, efforts of professional operators to attract coming from local houses principally. The an outside following by manipulation of prices. The most conspicuous price movements of the week have been attributed almost entirely to such manipulation. The sudden spurt after the middle of the week in the grangers and Pacifics gave rise to some conjecture of important developments day sold steady at yesterday's quotations. | under cover, but nothing came to the public knowledge to explain it. The supposition is general that the element which has been active in the market is made up of Western men, who are conducting parallel operations in the grain market. There was evidence of a shift during the week by speculators from the long to the short side of grain, and from the short to the long side in stocks. There have been operations also by professional pools in many of the minor railroads, apparently on the general assumption that the minor systems will ultimately be sought for absorption by | Wisconsin Central ..... the great systems, or for consolidation into | Wis. Central pref...... new competing systems. Obscure industrial stocks have continued to spring into sudden activity from time to time without | American special explanation, or on reports which fail of confirmation. Relapses in prices as sudden as the advances thereupon follow. These various symptoms go to show that he great banking and financial interests of the country, whose operations formed the backbone of last year's great markets, are still holding aloof. These interests are supposed to hold vast amounts of securities, the product of last year's combination | Am. Smelt. & Ref. projects, which are destined for ultimate listribution to the public. Their abstention from stock market operations is supposably due to their conviction that the present attitude of investors towards securities is not favorable to their distribution. Attention of the speculative public has reverted to the situation in the Northwestern and transcontinental railroad field by reason of the testimony elicited from the principals in the great contest of last year in a lawsuit. The ostentatious willingness of these principals to tell all they were asked to in a railway suit of minor importance itself made an impression on the financial world. The deduction made from it is that a policy of conciliation of public opinion is considered desirable by capitalists. The same impression is created by the action taken by counsel for the railroads in the government's suits for injunctions against secret rebates and cutting of freight rates. The acceptance of injunctions without demur and the protestation by rallroad officials of their willingness to have published rates enforced are taken as evidence of the desire to have a legal status fixed for the existing order of things as against the contingency of new measures of coercion and regulation. There is evident solicitude in railroad circles over the pronouncement of one of the interstate-commerce commissioners that "You cannot have competition

It is perceptible that these assurances have created some apprehension in the financial world that the unity of control and of purpose in transcontinental railroad Stockers and feeding sheep ...... 2.00@ 3.00 affairs was, in fact, not so far perfected Bucks, per 100 lbs...... 2.50@ 3.50 by last year's huge projects as was at first supposed in the speculative excitement then prevailing. No treaty provision is revealed which will guard against the competition of extensions by other lines in the transcontinental territory in accordance with their manifest destiny. The capital increase by Rock Island, and the passage day. Choice export and dressed beef steers, \$6.35 of control of minor railroad systems in the \$7; fair to good, \$566.36; stockers and feeders, territory concerned are looked upon as evi-5.25@5.35; Western fed steers, \$6@6.55; Texas dence of such projects of extension which 4.25@ 4.75 | and Indian steers, \$4.50@6.20; Texas and Indian | will necessarily be followed by other systems. In the Eastern territory the Intention of the Gould system to secure an Eastern coast outlet is accepted as a fact. Indianapolis Street-railway ...... 35,000. While there have been some fluctuations and the alleged friendly acquiescence of the Indpls. Street-ry, bonds (fours)....... 851/2 rival trunk lines is not believed by the Wall-street public. This represents a very different state of affairs from the supposed comprehensive community of interest among railroad owners which was commonly credited during the 2,000,000 shares J. T. Polk Co., 7 p. c. pref. stock ..... Prime to fancy export bulls..... 4.500 4.75 Good to choice butcher bulls..... 3.750 4.25 ewes. 44.5065.25; stockers and feeders. \$3.606.60; West-money daily transactions on the Stock Exchange Indiana Hotel Co., 6 p. c. pref. stock . . .

Theo future of the money market seems to rest largely on the future requirements of foreign money markets for the satisfaction of the British government loan and other government operations, for which it is expected gold will have to be sent from New York. The question of the progress of the crops and of important labor settlements remain to be settled and must be looked to as important influences upon

the stock market. Sheep-Receipts, 1,000. Treasury Statement.

WEEKLY BANK STATEMENT.

Heavy Losses of Cash.

an excess of receipts over shipments, but

this appears to have been largely due to

returns of currency from the South, the

demand for the cotton movement having

about subsided. Crop planting and farm

work seem to have been retarded at the

West because of unseasonable weather, and

this fact may account for the light demand

for money during the week from that sec-

tion. This inquiry is, however, only de-

ferred, and it may be expected to become

and probably all the checks for this inter-

est will be presented during the current

week, so that the operations of the sub-

treasury will most likely result in a smaller

drain from the banks than was observable

last week. Moreover, part of the gain by

prospect of its liberal distribution. This

absorption of money by the treasury and

the high rates for exchange, which threaten

gold exports, seem to make it improbable

reserves, at least until the end of the specu-

## CORN THE WEAK FEATURE

GRADUAL DECLINE CARRIES IT DOWN 5-8C AND 3-4C.

Prices of Other Grains Hold Steady, but Trade Is Relatively Dull-Provisions a Little Higher.

CHICAGO, April 5 .- Speculation on the Board of Trade to-day was an indifferent affair, and with the exception of a gradual decline in corn prices hung steady. May wheat closed a shade higher, corn %@%c lower and oats 1/3c lower. Provisions closed unchanged to 74-210c up.

There was very little desire to do one

thing or the other in wheat. Bearish conditions seemd to be in the majority, but the slight breaks experienced were met by fair rallies. At the outset cables were lower, but the crowd was talking of the sale by an elevator of over 1,000,000 bu of cash wheat at Duluth and refusal of bids for 400,000 bu more. This business was said to have been done late yesterday and to have been the incentive for the early buying in the previous session. On this factor May opened rather firm, unchanged to 14c up, at 70%c to 71%c. The crowd felt very bearish and the Missouri State crop report, indicating 54 per cent. increase in acreage of wheat and a condition of 90, started lower prices. The crowd was inclined to doubt the cash sale story, but, though May prices sold off to 70% \$70%c, a small demand occasioned a reaction and May closed steady, a shade up, at 70%@71c. The crop report for Kansas indicated 12 per cent. increase in acreage over last year, of which 18 per cent has been damaged and will be given over to other grains. The remaining 82 per cent shows a condition of 74. Corn weakness exerted an influence at times. Local recelpts were thirty-three cars, none of contract grade. Minneapolis and Duluth received 219 cars, a total of 252 cars, against 575 cars two days last week and 653 cars for two days a year ago. Primary receipts were 310,000 bu, compared with 822,000 bu and flour equaled 189,000 bu. Australian compared with 592,000 bu last week.

Corn was weak. Luiquidation of May deliveries by commission houses and little support by the bull crowd depressed prices. | steady at 54,96%c. Hemp twine steady at Liverpool was weak and favorable crop ness showed no improvement. On the decline pit raiders took fair amounts, presumably playing the market for a buil the treasury balances in the general fund, turn. Trade was small and the range rather narrow. May sold from 59%c to a weak close, %@%c lower, at 58%@58%c. Receipts were eighty-seven cars.

Oats were dull. Following the weakness in corn, the far-off options were easier, but May had some little support and fluctuated only narrowly. The Missouri State ceipts were sixty-four cars.

Provisions were dull much of the time but had an upturn on the better hog situathe associated banks for the week ending | tion. Pork led in speculation and was strong enough to give a firm tone to all products. Outsiders seemed to be well loaded with long property and waiting developments. Cash trade was featureless. May pork closed 71/2c to 10c up, at \$16.471/2; lard 21/2c higher, at \$9.60, and ribs un- grade, 77@80c. Corn steady at decline; mixed, changed, at \$8.871/6. Estimated receipts for Monday-Wheat, 30 cars; corn, 55; oats, 75; hogs, 32,000 head.
